

2001 STATE TOTAL DATA ANALYSIS/ TRENDS

2000/2001 Trends

The valuable contributions of Michigan law enforcement agencies are used to compile this annual report. In the last several years, primarily due to the transition to the MICR reporting system, Michigan has not maintained complete reporting participation. This has led to some fluctuations in statewide figures that may not be indicative of actual changes in crime. To ensure that the Crime in Michigan annual report is indicative of actual crime trends, missing data is now being estimated. The Michigan estimation procedure was adapted from the process used by the FBI. A full explanation of the methodology used to estimate is available in Appendix C.

Estimated state totals show that from 2000 to 2001:

Total Crime	0.32%
